

## Global Protect VPN Access for NMR Resources

GlobalProtect VPN is required to access our NMR resources in most situations including the reservation system, the archive, and the MestReNova license server.

For detailed instructions, visit the official UIT page:

[UIT Knowledge Base Article \(Link\)](#)

You can download the appropriate version of GlobalProtect for your operating system from this [link](#):

<https://vpn.utah.edu/>

After installing GlobalProtect, set the portal to:

**vpn.utah.edu**
